

ILY Enterprise, Inc. introduces the new iOpen Pro Series SATA2 Hard Disk Drive (HDD) Duplicator

City of Industry, CA May 12, 2017 – ILY Enterprise, Inc is proud to announce the release of new iOpen Pro Series HDD Duplicator featuring open platform design with super high SATA2 copy speed up to 300 MB/S or 18 GB/Min. Comparing to tower HDD duplicators, iOpen Pro Series is ideal for duplication of various format of HDD and SSD. With a SSD converter, exchanging and duplicating SSD is much easier for iOpen Pro Series to save time and achieve higher efficiency. The Copy Speed can go high up to 300 MB/S or 18 GB/Min, and will remain the same speed even if the number of load is increased.

Features:

- Supports mSATA, slim SATA, Micro SATA and NGFF format of SSD interface
- Asynchronous copy mode for higher production efficiency
- Supports all file system formats and file size, and supports Fast Copy for Windows, Linux, Mac and other system format files allowing you to do more in less time
- Supports MBR and GPT partition format
- Supports 4K advanced format hard disk drive without capacity limitation
- Equipped with automatic power-off mechanism to protect the hard drive from damage
- Fan automatic control system will stop the fan from running when the finish of copy process is detected to keep noise low
- Multi color light stick (optional device) standing up for working status display
