

PRESS RELEASE FOR IMMEDIATE RELEASE:

ILY Enterprise Inc. introduces the Holmes 221B Forensic Hard Drive Duplicator

June 26, 2018 – ILY Enterprise is thrilled to announce the release of the Holmes 221B Forensic Hard Drive Duplicator at the Police Security Expo 2018. The Holmes 221B is the first of its kind with new features that can benefit law enforcement for evidence collection by ILY Enterprise. The duplicator is equipped with copy speeds of up to 300MB/s. The product is extremely easy to carry around and comes in a rugged case with air tight lock for extra protection. In comparison to other Hard Drive Duplicators, the Holmes 221B is ideal for duplication of HDD and SSD containing delicate information. This product will be a game changer for the Forensic Field, thus the name. Its most intriguing function is duplicating the exact identical copy of the original source, while also blocking any modifications to the source with its write block function. Holmes 221B will enable to present a duplicated version of a HDD or SSD as original source which can be confirmed via the Hash values.

Features:

- Allows Duplication of Disk-to-Disk or Disk-to-file
- Make identical duplication of 2.5” or 3.5” HDD and SSD at speed up to 300 MB/S (SATA 2)
- Blocking any modification to the source HDD, no data can be changed when you access the source HDD from computer through USB connection
- Hash functions (MD5 and SHA-1) available for verification of image file against the source media
- Log file can be generated
- Destination Erase including Quick Erase, Full Erase, Secure Erase, and Enhance Secure Erase (Highest erase form on the market)
- Supports HPA/DCO duplication and removal, making sure you have identical hard drives as the original
- Allows duplication when source has bad sector

About ILY Enterprise, Inc.:
