

# SPARTAN

## The Digital Media Revolution

### Make Multiple Copies of Your CF, SD, or USB Cards In Minutes

The Spartan CF, Spartan SD, and Spartan USB Duplicator easily and accurately copies cards without the need of a computer. Advanced *Asynchronous* Duplication Mode allows each channel to operate independently so there is no need to wait for duplication to start or finish at the same time. Unique *Source Analysis* function analyzes the content on the master and intelligently copies only the data to speed up copy time. Fast, reliable and convenient, Spartan CF, SD and USB Duplicators are your best companion.

#### Features:

- Standalone solution; No computer needed
- High speed transfer up to 2GB/min
- Unique Source Analysis function
- No warm-up or cool-down requires
- Support Synchronous and Asynchronous copy modes. With improved SOTA technology, USB duplicator can do Asynchronous copy even if the source data size is bigger than duplicator system memory.
- Real time copy and compare technology (copy one section and compare, then copy another section and compare again) to reach higher efficiency of copy compare process.

#### Asynchronous Duplication

Each channel independently loads, unloads, and copies.
